Axis Communications Releases New Cameras
Introducing the P39-R Series and the Q6000-E

Axis P39-R Series: Designed specifically for onboard surveillance, the P39-R series cameras are compact, rugged, and discreet, and are able to withstand the vibrations of a moving vehicle. Offering up to 2MP resolution and edge storage, as well as audio capabilities, the P39-R is an ideal solution for any onboard surveillance application.
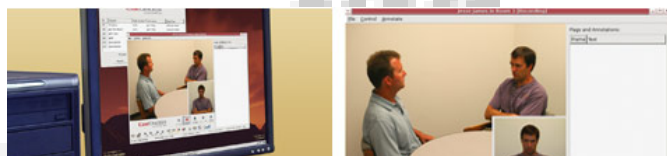

Axis Q6000-E: A new way to approach PTZ, the Q6000-E has 4 independent image sensors, each offering a 2MP resolution, resulting in a full 360° field of view. The unit is paired with a PTZ camera to provide a full 360° surveillance solution with PTZ capabilities.

CaseCracker
Investigative Interview Recording and Management System

CaseCracker is a software solution that allows the user to easily record and manage interviews. The system can record two video streams and an audio stream from up to two interview rooms simultaneously. Recording is done at 30 fps at up to a 640 x 480 resolution, with 16 kHz audio sampling. The system allows you to watch live feeds as well as review previous recordings, and a log in feature records all users who have reviewed the recording. Through the user friendly, interactive software you can easily flag and comment on sections of the recording for later review, and export images, segments, or entire recordings to your computer or burn them to a DVD. A portable version is also available.
