Product News

Samsung Has a New Name – And New Product Line Introducing Analog HD Cameras by Hanwha

Hanwha Techwin (formerly Samsung) has released their WiseNet HD+ Series, a new line of Analog cameras offering full HD resolution.

The WiseNet HD+ line allows users to upgrade their surveillance systems to HD while still utilizing existing coax cable. The cameras offer a variety of high-performance features, including:

- 1080p Full HD Resolution
- Day/Night operation
- Motion Detection
- Defog
- IR Illuminators
- And More

Setup functions are easily controlled by OSD with the built-in joystick, or control over coax cable with WiseNet HD+ DVRs.

Low power consumption, compact form factors, and transmission up to 1,640 feet further enhance the lineup.

Models include:

- Box
- Indoor Dome
- Outdoor Vandal Dome
- Outdoor Bullet

Please contact VC&A for additional information on these or any of our products, or to schedule a demo.

Axis – Extended Warranty for M-Line

Axis Communications has extended the standard warranty on its M-Line series products from one year to three years at no additional cost.

Other News & Notes

The New Security Trend – Ears

The latest access control technology trend? Using an individual's ears for authentication. This new technology instantaneously measures acoustic characteristics determined by the shape of the ear, which is unique to each person. The technology uses an earphone with a built-in microphone to collect earphone-generated sounds as they resonate within ear cavities. Since the shape and size of the ear are unique to each person, these acoustic-based features can be used to distinguish individuals.
