Security & Surveillance Technologies

VanGuard Products, Clever Solutions

Van Cleve & Associates, Inc.'s monthly newsletter is intended to keep you, our valued customer, up to date with announcements regarding our latest products and technologies, upcoming exhibitions and conferences, and other news and events in the security and surveillance industry.

Totevision Video Wall

The video wall is a scalable system, built around a 55" LCD Panel, which allows multiple panels to be integrated together. The system is controlled by a video wall processor, a robust, server-level system designed for continuous use, utilizing the Windows-based VuWall video wall design software. The system can display multiple video inputs, as well as any Windows-based file, program or Internet page.

Features:

- Full HD 1080p (1920 x 1080)
- 8ms Response Time
- Super Narrow 3.5mm Combined Metal Bezel
- LED Backlight produces Brighter Picture using Less Power
- 10-Bit LCD Panel Driver creates Smooth Video & Enhanced Color
- Optimal Picture Quality with 3D Comb Filter & MStar ACE-5 Automatic Color & Image Enhancement Engine

Product News

KEYWATCH mobilePBX from KeyWave Consensual Call/Text Recording & Monitoring

Easily & economically record consensual phone calls & text messages while also live-monitoring and managing operations. Users can create a cover phone number to place and receive calls/texts from any "real" phone (i.e. work or personal, landline or cellular) – while maintaining cover and ensuring proper, authenticatable, evidentiary recordings.

Features:

- 24/7 Call Capture
- Remote Monitoring
- Local Number Selection
- Call Logging & Recording
- Caller ID Handling / Authentication
- Voicemail / Missed Call Notifications

UAS MITRE Challenge – DroneRANGER

Van Cleve & Associates, Inc. is one of eight finalists participating in the MITRE C-UAS Challenge, which seeks solutions for drone detection and interdiction. VC&A's submission is the DroneRANGER, which incorporates a radar system along with a long-range frequency jammer, capable of operating in both automatic and manual modes. Live flight testing will commence in mid-August.
