Pelco PTZ Camera with SureVision 2.0

High Performing PTZ Camera with Enhanced Lowlight Capabilities

Pelco's SureVision 2.0 technology produces superior image quality by combining advanced low-light capabilities, true Wide Dynamic Range (WDR), 3D noise filtering, improved tone mapping, and anti-bloom capabilities.

This technology is integrated into the new *Spectra Enhanced* PTZ Camera to provide a high quality PTZ system with superior low-light capabilities, featuring:

- Full HD 1080p @ 60fps
- Low-Latency PTZ
- Image Defog Mode
- Electronic Image Stabilization
- Full Suite of Video Analytics
- Edge Storage
- ONVIF Profile-S & Profile-G Compliant

Southwest Microwave's Long Range Digital Microwave Link – *Intrepid MicroWave 330*

The new addition to the *Intrepid* line, the MicroWave 330 is a volumetric perimeter detection system, reliably detecting human intruders with minimal environmental nuisance alarms. The unit operates at K-Band frequency, allowing for better intruder detection while limiting susceptibility to outside interference. A true parabolic antenna, with a beam width of approximately 3.5 degrees, assures long range operation, superior beam control, and predictable Fresnel zones. The advanced receiver design increases detection probability by alarming on partial or complete beam interruption, increase/decrease in signal level or jamming by other transmitters.

Axis Guard Suite & Audio Analytics

Axis Communications' two new analytics packages turn network cameras into smart security systems.

Guard Suite is a set of three video analytic applications: *Motion Guard* for general motion detection, *Fence Guard* for detecting attempts to climb or sabotage a fence, and *Loitering Guard*, for detecting suspicious loitering.

The **Audio Analytics** package includes basic audio detection, where an alarm can be triggered for noise thresholds, & audio recognition, which can distinguish particular sounds, such as glass breaking, vocal aggression, & gunshot detection.

Ganz 6MP Fisheye 360° Dome Camera

- 6 Megapixel Resolution
- 360° Panoramic Image
- 1.6mm Fixed Lens
- Built-in IR LEDs
- IP66
- True Day/Night
- Digital WDR
- Unique dewarping produces non-distorted views of the 360° image

Please contact VC&A for additional information on these or any of our products, or to schedule a demo.

Other News & Notes

Panoramic Camera Use Surges

Technology Benefits:

- Wider Area Coverage with No Blind Spots
- Retrospective Tracking
- Total Situational Awareness
- Fewer Cameras & Infrastructure required to monitor a scene
- Camera Operation is Completely Silent

Fine-Tune Your Security Assessment

Reasons to do so:

- Make assessments easier to execute
- Improve management's support of your effort
- Make your assessment approach a better fit to your organization's risk picture

Five Ways:

1. Establish an assessment program context
2. Assess & expand your resources
3. Determine how well-aligned your function is within the organization
4. Simplify the assessment effort
5. Share the credit

Bosch Releases Milestone Dewarping Plug-in

The Dewarping plug-in for Milestone XProtect is now available for download. This enables users operating on the Milestone Smart Client side to dewarp image streams from Bosch's panoramic cameras. The plug-in can also be used in exported video material, and snapshots and report printing are available as well.

Van Cleve & Associates, Inc. is a small, woman-owned security and surveillance equipment distributor located in Alexandria, VA. With over 15 years' experience and more than 40 vendor relationships, VC&A has the technology and expertise to assist with any and all law enforcement requirements. Contact us today for more information or to schedule a demo of any of our equipment.
