CASECRACKER

RECORD & MANAGE INVESTIGATIVE INTERVIEWS EASILY & SECURELY

Review recordings at your desktop

Add flags and notes for easy review

Search recordings quickly and easily

Export, save, and share any recording

CaseCracker is designed to be easy-to-use, requires little-to-no training, and is customizable to meet the needs of your organization. The system is offered in multiple form-factors to allow recordings to take place in police departments, universities, hospitals, or even in field locations like hotel rooms or transport vehicles.

CAPABILITIES

- Easiest-to-use solution on the market
- Proven performance – used by over 1,300 local and federal agencies, including, FBI, DEA, NCIS, Army CID, Air Force OSI, US Coast Guard, Boston PD, Seattle PD and Fort Collins PD
  - Among the first to enter the market with purpose-built interview recording room solution for law enforcement
- Backed by in-house engineers to support product innovation and integrity

- Hardware and software warranty included
- Ongoing enhancements and new features provided with every system
- Software support – technical staff available to answer all software related questions via email or phone
- We work with integrators for local installation and hands-on product support
