

VAN CLEVE & ASSOCIATES, INC.
SECURITY AND SURVEILLANCE TECHNOLOGIES

In September, VCA is spotlighting tools that meet precise surveillance needs. The BioDigitalPC® delivers powerful computing in a rugged, credit card-sized form factor. The GANZ AI Box improves surveillance systems with edge-based AI analytics. The ToteVision 4K high-resolution monitor makes it ideal for command centers and mobile units.

All of September's products are NDAA and TAA compliant. Email us at info@vcasecurity.com to learn more.

FEATURED PRODUCTS

The PodCom-AV2, a single card PodCom metal enclosure.

ADDC BioDigitalPC® 12X Computer

A powerhouse pc with a very small footprint. This x86-64 computer is housed in a rugged, business card-sized container, equipped with an Intel 8th Gen i7 CPU, 32GB DDR4 RAM, and a 1TB NVMe SSD. Made in the USA and TAA-compliant, it is waterproof, dustproof, fire-resistant, and hot-swappable. It operates on 5VDC, averages 15W of power, and requires no chilled cooling.

Fully compatible with all major operating systems, it supports Windows, Windows Server, VMware ESXi, Linux, CentOS, RHEL, and Ubuntu.

- 1TB NVMe SSD (SED)
- Quad core (8v Cores) Intel i7 processor
- 32GB of DDR4 RAM
- Powered by 5VDC and consumes between 10W and 25W
- (4) USB 2.0 and (1) USB 3.0
- (2) PCIe x1 Gen 3
- DisplayPort++: DP, HDMI, DVI and VGA
- Operating Temperature: -40°C to 60°C
- vPro Virtualization Support
- Trusted Platform Module Version 2.0
- Size: 84mm L x 54mm W x 6.5mm D
- Weight: 2 oz

GANZ AI BOX V2.0

This compact, intelligent video analyzer uses advanced AI to process multiple video streams, detecting objects, behaviors, and visual patterns in real time. It integrates easily into existing surveillance systems and supports multiple AI apps per channel, offering advanced analytics like pose estimation, intelligent scene detection, and AI-based false alarm reduction.

- Event rule combining - AI video analytics
- Simple AI setup with existing IP cameras
- Multi-level AI-based false alarm reduction
- High-performance pose estimation AI technology
- Smart scene detection
- Run multiple AI apps on each video channel
- Easy integration with other systems
- Web-based configuration
- Enhanced security options
- USB, RS-485, LAN and Wiegand interface
- NDAA compliant

Totevision LED-3225-4K - 32" Ultra High-Definition LCD Monitor

This backlit LCD monitor delivers exceptional quality Ultra HD (3840 x 2160) 4K class resolution and is designed for high-performance, continuous-use environments. It's ideal for monitoring multiple 4K and HD camera feeds in command centers, perimeter security stations, and mobile surveillance units.

- Displays native Ultra HD (UHD) signals (3840x2160) with no downscaling
- LED backlight: brighter picture using less power
- Widescreen (16:9) native aspect ratio
- Multiple connections including HDMI, Composite and VGA
- Built-in removable desk stand
- Built-in speakers
- Anti Glare Coating

Specs

Mount	VESA 200 x 100mm; Removable Desk Stand
Resolution	840(H) x 2160(V)
Response Time	8ms (Rising/Falling)
Audio/Power Speakers	8 Ohm, 2 Speakers x 5 Watts
Digital Signal Processor	3D Comb Filter
Inputs	HDMI / Display Ports / VGA
Power	AC 100-240V 50/60HZ, Ext Power Supply
Dimensions	29.25" x 19.8" x 2.2" / 362 x 267 x 55mm
Weight	15.4 lbs / 7 kgs

VCA was proud to participate at the National Technical Investigators Association (NATIA) Conference in August.

September / October Conferences

SOLUTIONS WE PROVIDE

- Cameras
- Concealments
- Covert Equipment
- Fiber Optic Transmission
- Interview Room Systems
- Monitors & Video Walls
- Night Vision / Thermal
- Physical Security / Cctv
- Tagging, Tracking & Locating (TTL)
- Tscm / Nljd
- Uas / C-Uas
- Video Compression

Van Cleve & Associates, Inc. is a small security and surveillance equipment integrator/distributor. With over 26 years' experience & more than 70 vendor relationships, VCA has the technology & expertise to assist with any and all law enforcement requirements.
